ACHIEVEMENTS

“

One of the finest institutions of learning. The college has been maintaining the same high standard for decades. The college still believes in promoting discipline among the students; and is still considered one of the strictest colleges in the city; in terms of discipline. The staff pay personal attention to students, who are below average. The staff are quite cooperative with the students, in clarifying their doubts; even outside class hours. The fees charged by the college is quite affordable. The campus is clean and well maintained. Over the years, the principals have been accessible by the students. This accessibility promotes a sense of security among the students. Their library is among the best in any college across India. One aspect that makes this college stand out among the crowd is the Shepherd program. It instills in the students a social responsibility to care for the communities, which do not have access to even basic needs.

St. Joseph's College, Trichinopoly, has played a great part in the development of higher education in Southern India. Many of its former alumni who have taken the Honours Course in Physics from that college, has subsequently been research students in my laboratory and achieved conspicuous success.

Sir C.V. Raman, Nobel Laureate

“

All glory to the institution which has grown in popularity and usefulness and has contributed in great measure to the spread of education in South India. More than anything, the example of self-sacrifice by the Rev. Fathers belonging to the mission set before the students – the plain living, high thinking and purposeful perseverance that they embody in the persons – will be a lesson for all educational and other institutions in this country.

Raja Sir Annamalai Chettiar of Chettinad

For imparting education, culture and discipline, I have known no other institution which can excel it. It is my earnest prayer that this great institution should continue its good and useful work for many centuries to come.

St. Joseph's is a very special college and the SHEPHERD program is especially inspiring. We have learned much here and hope we can use the service learning program as a model in Japan.

Dave Bockmann, Tokyo, Japan

“ I am highly impressed upon the community service introduced in the curriculum of all UG and PG programmes. This will induce at least good percentage of the youngsters to take up community service.

This institution has been standing as embodiment for the contributions given by Christianity to this country - more specially - for weaker section of people. I do believe that the productivity of this institution, stands as a remarkable pillar to the various sections of the country's progress by deploying their students.
